March 22, 2020

Dear River Vale Residents,

We have been notified by the Department of Health that, as of 3:00 pm this afternoon, there are four confirmed cases of Coronavirus (COVID-19) in the Township of River Vale. Please do not look for any specific information as none is available.

Many of the towns in Bergen County are seeing an increase in confirmed cases and these numbers are changing rapidly. We can expect a significant increase in our confirmed cases over the next few days. As we all know, certain sectors of our communities are particularly vulnerable to this virus because of their age, underlying conditions or both. We are taking every action to provide for, protect and inform these vulnerable populations and we urge our healthy residents to be mindful of the potential cost of the virus' spread.

We are in this together, and therefore we need you to heed the recommendations of Governor Murphy and the CDC by practicing "social distancing," avoiding social gatherings and staying home. Together, we can and will slow the spread of this pandemic. We will continue to update you as new information becomes available.

Be Well,
Mayor Glen Jasionowski
